About The Joinery Network

Choosing Timber For Your Project

When it comes to new windows and doors for your home, it's important to choose a product that offers stunning style, high quality and top performance.

That's where Lignum, the exclusive range of timber windows and doors created by The Joinery Network, comes in.

Wooden windows and doors have become a fast-growing choice for home improvements projects, favoured for the

beautiful and authentic style they offer, matched with the positive environmental implications of choosing a sustainably sourced material.

Suitable for both classic and contemporary projects, timber windows and doors boast clean lines, sleek style and add heaps of unique character.

We know how important security and energy efficiency is for your home, which is why every product is tested to stringent standards

The complete range meets...

PAS 24:2016
For Security

Document Q
For Security

BS 6375:1
For Weather Performance

Document L1B
For Energy Efficiency

Document M
For Accessibility

so you can comply with Building Regulations

**Tested and
Approved**

**The Superior, Fully Tested Range
of Timber Windows & Doors,
Created by The Joinery Network**

The Lignum range by The Joinery Network is the first complete UK timber window & door system on the market to fully meet Building Regulations.

Fully accredited and designed for UK homes, the Lignum range includes flush casement, box sash and spring balance vertical sliding windows, along with French, single, entrance and bifold doors.

Every product has been fully tested to comply with Building Regulations Document Q for new build

housing. The timber windows and doors are certified to stringent PAS 24:2016 standards for security and BS 6375:2015 Parts 1 & 2 for weathertightness.

The Lignum timber window and door suite is characterised by slim sightlines, elegant UK profiles and high performance. From flush casement and sash windows to French, bifold and entrance doors, the Lignum range offers styling to suit both modern and traditional properties.

Flush Sash Windows

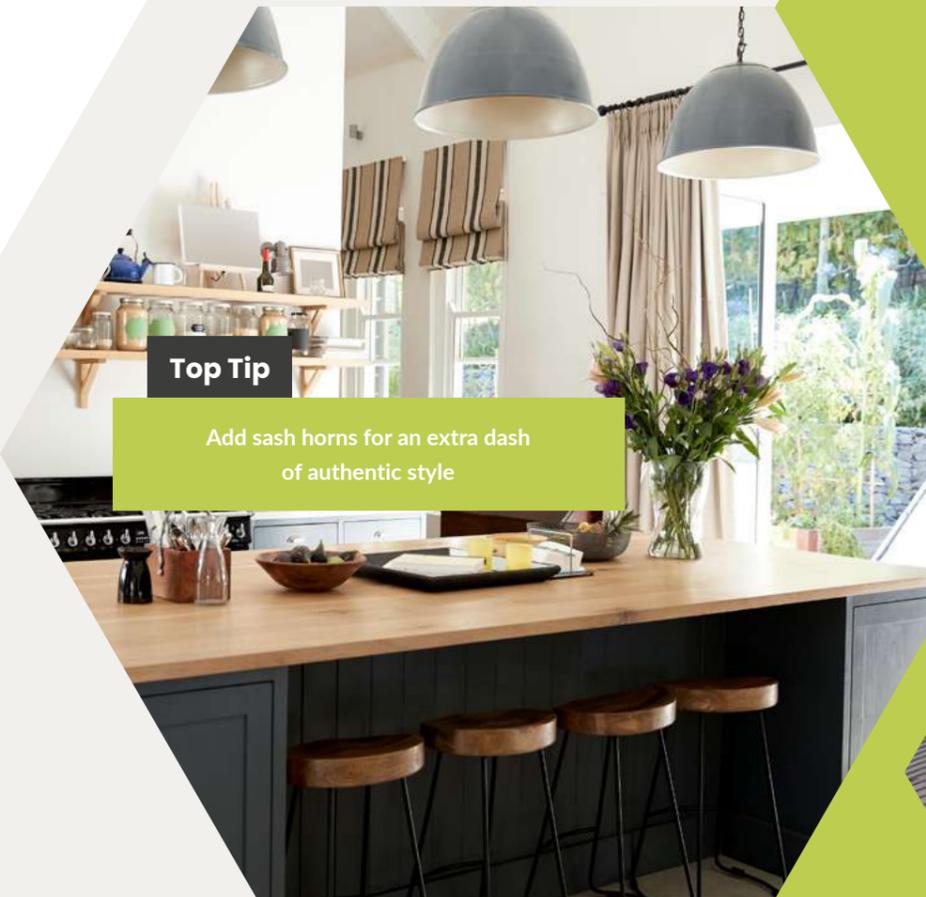

Flush Sash Casement Windows are a classic, popular choice for projects looking for a versatile window that can be tailored to suit individual style.

Distinguished by frames that finish flush with the face of the window, Lignum flush sash casement windows feature frames that appear the same width, giving the window equal sightlines for a clean, sleek and elegant feature that can be tailored to individual house styles. Lignum Timber Flush Sash Casement Windows are designed to suit both traditional and contemporary homes.

The flush exterior and natural woodgrain finish means Lignum flush casement windows are perfect for retaining character to country cottage renovations.

If you're choosing windows for your self-build or new build project, shades of grey will strike the perfect balance between striking contemporary style and classic beauty, taking your project to the next level. Clean, slim sightlines and internal ovolo detailing makes the windows easy to clean and there's an option for tilt and turn inwards opening for easy cleaning - or where space is limited to open the window outward.

Top Tip

Add sash horns for an extra dash of authentic style

Top Tip

Adding an astragal bar puts an art-deco twist on a traditional brick built house

Sliding Sash Windows

Traditional sash windows are the enduring design of grand Georgian houses, Victorian Villas and elegant Edwardian homes.

Lignum Sliding Sash Windows offer an authentic replacement for these properties, retaining the traditional beauty of period property renovations whilst providing 21st century style.

Equally, timber sliding sash windows add a classic, elegant touch to newer projects looking for a warm touch of

character. With a vertical sliding opening style, sliding sash windows are the ideal space saving option.

The windows offer easy opening, matched with top security for the utmost peace of mind. The slim frames create large, airy windows which work perfectly in an open plan living space. The windows can be paired with large sliding or folding doors to flood the room with natural light.

Entrance Doors

When investing in your project, you want to make sure that the entrance to your home does the rest of your property justice.

Lignum Timber Entrance Doors are an inspirational range of classic, contemporary and modern designs or can be made bespoke to your own style. We know how important it is to keep your home

and family safe, secure and comfortable, so every Lignum entrance door features high security multipoint locking and is highly insulated.

The Lignum range also includes single back doors. The sturdy, high performance doors will withstand the everyday use of busy family life, without compromising on the style of your kitchen.

Top Tip

Complete the look and fully suite your property with a Lignum timber single back door

External Doors

To suite with the Lignum range of timber windows, complete your project with Lignum timber external doors.

Give your home a grand entrance with a Lignum entrance door, add light with Lignum bifold doors and finish the look with a Lignum back door.

Top Tip

Colour-match your French doors with your windows for seamless style throughout

French Doors

French doors are a timeless, classic feature for homes across the UK.

Suitable for projects large and small, modern or traditional, French Doors are a classy way to open your home up to your garden in a simple but effective style.

Wood is the best choice for French doors, as timber offers the glorious elegance French doors require - without any chunky plastic frames. Throw open your French doors to make a grand entrance to your garden.

Lignum French Doors are popular choice for renovation projects as they can be usually be installed into an existing opening.

Because they are made from wood, you can authentically replicate existing features such as feature rails, top lights or side windows, without compromising on security or energy efficiency.

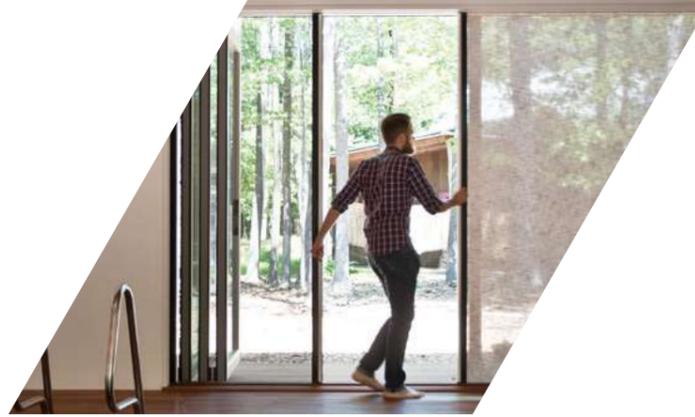

Bi-Fold Doors

Bi-fold doors are the ideal choice for home transformation projects looking to make the most of their space.

Self-builders and renovators across the country are choosing bi-fold doors to open up their homes to the wonderful outdoors.

Lignum Bi-folding Doors combine elegant design with a practical wide opening out on to a patio or garden. Folding back all the doors means that you can open up the wall to outside even with limited space.

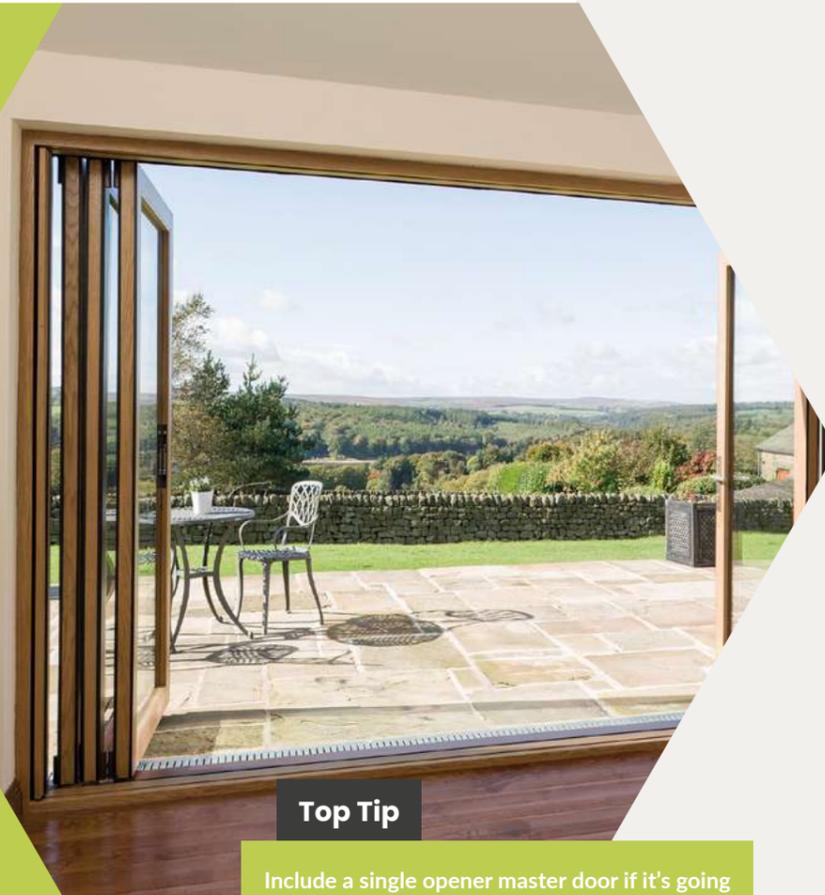

The various door configurations offer a practicality, as you can choose which way the doors stack, or have doors stacking on both ends for a larger opening.

Even when closed, bi-fold doors offer a stunning feature for projects, illuminating living spaces with natural light all year round. Lignum bi-folding doors feature top quality Centor gearing for smooth operation, and can be combined with the unique Centor insect screen and privacy blind system.

Top Tip

Choose multiple glass panes to create a wall of glass, allowing the sunlight to flood through

Top Tip

Include a single opener master door if it's going to be a regular way in and out of the house

Sliding Doors

If it's panoramic views you're looking for, choose sliding doors.

Sliding patio doors have come a long way in recent years, making it easy to create a wall of glass by combining fixed panels with sliding doors.

The super-slim Imago Sliding Door suites with the complete Lignum range. Beautifully engineered

with Italian styling, it's one of the slimmest timber sliding doors available to open up your home to the outside.

Your sliding door feature can open from the left or right hand side for easy garden access and fluid indoor-outdoor living.

About The Joinery Network

The Joinery Network is a co-operative of leading joinery industry experts and suppliers.

All of our Joinery Network members are committed to helping independent joinery companies manufacture superior timber windows and doors.

We are continuously investing in research, development and testing of timber glazing products to bring new superior design options to the market.
